The prior art of record teaches different ways of analyzing consumable resource requirements, but fails to teach, or suggest the claimed limitations of (in combination with all other features in the claims), a method or computer program wherein a sample window is overlaying over a single portion of the formatted document, the window area being smaller than the document area, analyzing the single portion to determine consumable resource requirement, and ascertaining the resource requirements of the print job based on the resource requirements of the single portion prior to sending the print job to a printer, as recited in the independent claims.

Any comments considered necessary by Applicant must be submitted no later than the payment of the Issue Fee, and to avoid processing delays, should preferably accompany the Issue Fee. such submissions should be clearly labeled "comments on statement of Reasons for Allowance".
